

### **REMARKS**

Applicants thank the Examiner for the thorough consideration given the present application. Claims 1-21 are currently being prosecuted. The Examiner is respectfully requested to reconsider his rejections in view of the amendments and remarks as set forth below.

#### **Allowable Subject Matter**

It is gratefully acknowledged that the Examiner considered the subject matter of claims 1-21 as being allowable.

#### **Objection to the Specification**

The Examiner objected to the specification due to improper reference numerals. By way of the present Amendment, Applicants have corrected the two instances of incorrect numbers pointed out by the Examiner. In addition, other changes have also been made to correct other errors.

#### **Objection to the Drawings**

The Examiner objected to the drawings as not including two reference numerals. By way of the present Amendment, substitute Figure 7 is being submitted to correct one of the numerals. The other numeral has been changed in the specification to correspond to the drawing.

**Conclusion**

In view of the above, it is believed that the application is now in fully allowable form. Accordingly, early and favorable action is respectfully requested.
